

TOURIST BUS

Comfortable. Even on your wallet.

BHARATBENZ

Power Ahead

Introducing the **Tourist Bus** from **BharatBenz**. Its air-conditioned and comfortable interiors, wider seats and enhanced ride quality keep passengers relaxed no matter how long the journey is. Along with these features, its extraordinary performance and fuel efficiency help you provide your passengers with utmost cosiness in an economically advantageous way.

UNMATCHED COMFORT

Passengers' Comfort

Engineered to perfection with cutting-edge ergonomic features, BharatBenz's Tourist Bus promises hassle-free rides. When it comes to the comfort of passengers, the premium air conditioning keeps the saloon cool all through the journey. The parabolic suspension reduces the transfer of road undulations and the optimally tuned shock absorbers ensure unruffled travel. The bus body is wide enough to facilitate space for wider seats and gangways. The best-in-class wheel base enables better space distribution in the saloon. The wider and deeper seats provide passengers with a completely relaxed journey. The 2 x 1 layout seating makes room for wider seats so that passengers are comfortable even in longer journeys.

Drivers' Delight

For a smooth drive every time, the Tourist Bus is equipped with tilttable and adjustable steering system to help attain a comfortable driving position. The triple cone synchronizer rings lead to smoother gear shifting and the flat torque engine facilitates lesser gear shifting. The aluminique structure results in lower GVW of vehicle that enables higher acceleration. Furthermore, the shorter turning circle diameter makes driving easier on narrow roads.

Adjustable steering

Aluminique body structure

Air conditioner vent

Seat belt and armrests

Zero Noise. Zero Vibration.

BharatBenz's Tourist Bus comes with a thoughtfully engineered square-shaped 4D34i 4-cylinder, BS3, turbo-charged, inter-cooled, 125kW (170HP) CRS (Common Rail System) engine and air-conditioned interiors that eliminate noise and vibrations for travellers. The engine mounted AC compressor drastically reduces the vibrations of the engine and also eliminates the need for an additional slave engine. The M036S6 6-speed transmission with overdrive gear for lower engine RPM at highway cruising results in lower noise levels and the cable shift removes the vibration of gear shift lever.

The rigid modern body with chemically locked bolts and structure and the bonded and bolted saloon floor and roof assembly of the Tourist Bus assure zero squeaks and rattles. With the low-noise air-conditioning compressor and insulated interiors for better noise and vibration reduction, passengers can travel undisturbed during night journeys.

Luxurious Interiors

The interiors are equipped with loads of state-of-the-art features that include a television, a modular hatrack with integrated service sets and optional features such as refrigerator, pantry and microwave oven. The colour-coordinated interiors along with the large windows with curtains give passengers a pleasurable riding experience.

UNPARALLELED ENDURANCE

Durable Design

Thoughtfully designed using aluminium, the body of the Tourist Bus effectively prevents rust and corrosion. The bolted construction leaves no chance for cracking through welds. And the floor of the bus is made of marine grade wood so that it can last really long.

The chassis comes with a powder-coated frame that contributes to longer rust-free life, alligator type cross member that increases strength and rigidity and a higher web height that ensures high durability.

Fabulous Finish

Further to the superior durability and reliability, the stylish looks of BharatBenz's Tourist Bus will impress travellers. The smooth joining of panels and FRP, modular side panels that are easy to maintain, greater quality trims and premium finish of the polyurethane paint with high-end solids go into the making of a stunning outlook. The polyurethane paint resists UV rays effectively and makes it last longer.

Technical Specifications

Tourist

Engine

Model	4D34i
Type	4 cylinders, vertical in-line, BSIII/IV, inter-cooled, turbo-charged
Capacity/displacement	3907 cc
Maximum power	170 hp (125 kW) @ 2500 rpm
Maximum torque	520 Nm @ 1500 rpm

Gearbox

Model	M036S6, Synchromesh
No. of gears	6 forward with overdrive & 1 reverse

Clutch

Type	Special organic, single disc, ø330 mm
------	---------------------------------------

Brakes

Type	Dual circuit, full air, S-cam type drum
Electronics	Anti-lock Braking System (ABS)

Axles

Front axle	Heavy-duty reverse elliot 'I' beam
Rear axle	Fully floating type

Suspension

Type	Parabolic suspension at front and rear
Anti-roll bars	Double-acting telescopic shock absorbers and anti-roll bars at front and rear with stabilisers

Steering

Type	Power steering, adjustable and tilttable
------	------------------------------------------

Tyres

Type	235/75 R 17.5 tubeless radials
------	--------------------------------

Electrical System

System output	24 V
Battery	2 x 12 V, 75 Ah
Alternator	120 Amps

Fuel Tank

Capacity	160 L
----------	-------

Body Features

Seats	Extra-wide pushback seats with bottle holder, handholds, armrests, document holder
Seat layout/capacity	2x1 layout, 26+1 seats
Floor	Marine grade plywood, anti-skid vinyl top layer
Passenger door	In-swing, automatic
Windows	Fixed
Emergency exit	Door at rear RHS, rear breakable glass, side breakable window
Emergency kit	Fire extinguisher (5kg x 2), first-aid kit
Hatrack	Modular, integrated service sets with reading lights, speakers, adjustable AC vents, call switch
Lights	4+1 standard lights distributed through saloon area
Luggage boot	At rear of vehicle
Additional features	Light at entry area, emergency alarm
Fitments	19" LCD television, speakers
Optional fitments	CD/DVD player, destination boards

Engine

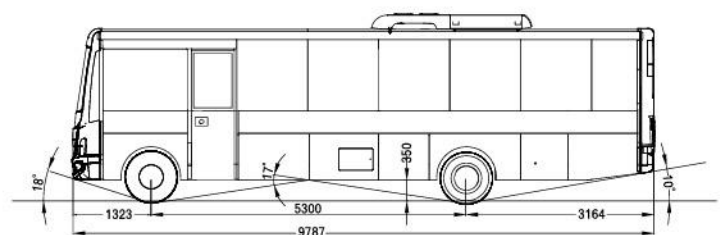

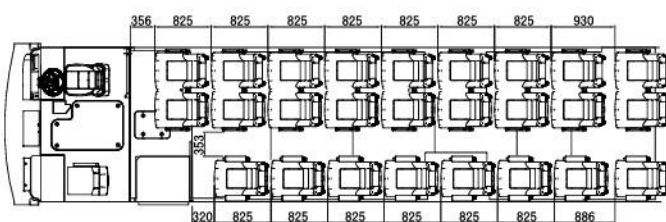

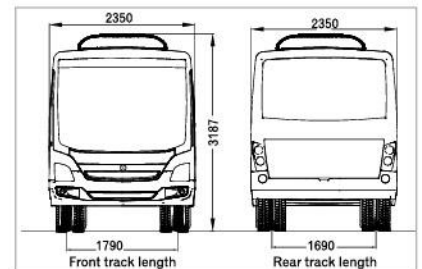

High pressure CRDI

COMMITTED FOR THE LONG HAUL

BharatBenz is committed to the Indian transport industry. Our rigorous study of the conditions has enabled us to build buses that are ready to take on the challenges of the Indian terrain and businesses, head on. Our state-of-the-art manufacturing plant in Chennai is only one of the many steps in our journey on Indian roads.

SERVICE THAT LOOKS AHEAD FOR YOU

Designed to deliver

Dealership

- Most reliable buses with world-class aggregates to ensure maximum uptime
- Best-in-class warranty period to guarantee complete peace of mind
- Driver-friendly alert signals to ensure preventive maintenance

Experience expertise

Mobile service van

- Highly skilled service staff to ensure quick and perfect service every time

- Online technical information platform – Ascent (After Sales Central), a multilingual, animated system to facilitate information access at all service centres
- Advanced diagnostic systems to aid in troubleshooting and eliminating unforeseen problems
- Mobile service workshops to ensure reach within 4 hours in case of emergency
- Exclusive 24x7 customer support and technical hotline for all service needs. Call on our toll-free no.: 180030012345 or email us at dicv_service@daimler.com

Stay a step ahead

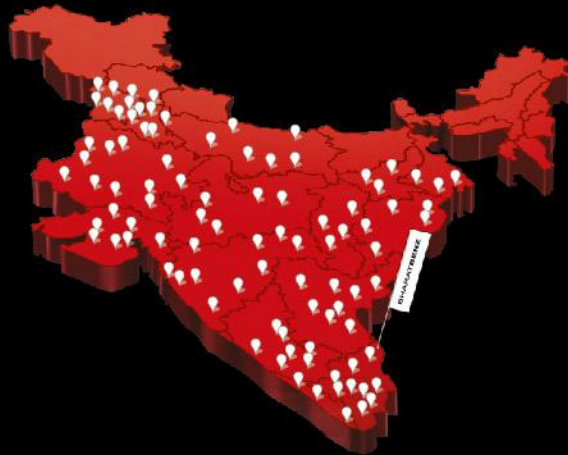

Ascent

- Maintenance Pack that will take care of all maintenance-related needs
- Extended Warranty to ensure high-cost aggregate repairs be the least of your concerns for up to 5 years
- BharatBenz Insurance, a cashless facility with towing and zero-depreciation features to ensure quick repairs anywhere in India

BHARATBENZ Financial

- Structured EMI payback options customised to suit your business's cash flow
- Innovative "All in One EMI" provides a fully integrated financing solution for the vehicle, maintenance pack, insurance and extended warranty
- 24x7 customer support to provide hassle-free claims management across India
